Thank you very much for considering Manager Software and Recording for your upcoming wedding and video needs. We hope that this information will help you in your decision of how to capture and preserve your wedding memories. If you have any questions, please don't hesitate to call. We would be happy to help you with whatever information you may need.

Manager Software uses only the highest quality materials in preserving your wedding memories. We boast a collection of exceptional video cameras, editing equipment (all computer based and fully digital), and archival quality DVDs for years of viewing enjoyment. Together with our many years of experience in event videography and still photography, our productions will be a treasured part of your family history for generations to come.

We offer a number of packages and options to fit your needs and budget. If you want it in your video, we'll get it there. Please take a moment to review some of our basic packages and prices. We can also handle just the photography with a special package. Call us for details!

Our Basic Packages:

(1) Wedding Ceremony Only \$750

We will film your ceremony with one (1) camera, start to finish, with a total of three (3) copies made. We will also include opening titles provided that we receive one invitation and/or picture of the bride and groom no less than one (1) week before the ceremony. We assume that this "strait thru" filming will not require any edits. The finished copies will be mailed to you within two (2) weeks from the date of the ceremony. If editing is necessary, it can be performed at \$100/hr (but this is your decision).

(2) Wedding, Reception, and Stills with a Video Montage \$1500

In addition to the Wedding and Reception package (above), we will supply a still photographer who will take pictures during the ceremony (if possible) and at your reception. We will then add a 40 picture montage set to music after the footage of your reception. **OUR PHOTOGRAPHER WILL NOT BE USED IN PLACE OF YOUR CEREMONIAL PHOTOGRAPHER.** Their photos will only be used in our video segments (as they are digital stills and will not be printed on paper).

(3) The Everything Package \$2500

Everything from Package 2 with the addition of a photographer to take all the Family and B/G Posed Photos before and after the ceremony. This package also includes your Newspaper, Bridal, and Engagement Photos (one 1 hour sitting) as well as all your pictures on CD-Rom with printing rights (print your own albums at a reduced price). We will also help you with up to 5 additional hours of our services. And as if all that isn't enough, we also do custom framing and can create heirloom bridal and/or engagement pieces less expensively than sending them out to a custom framer. Ask for details about how you can get everything in one stop!

Some possible extras:

All Photography without video\$1500

A Second Video Camera at the Ceremony \$250

You are welcome to tell us where to stand!

A Video “Highlights” of pictures and footage \$200

We use your ceremony/reception footage and additional stills to create the keepsake of a lifetime.

A Second montage of your wedding album (40 pics) \$150

We will need your wedding album to do this, but we will get it done quickly!

Custom Editing (we can do amazing things!) \$100/hr

This may include footage from the rehearsal dinner, bachelor or bachelorette parties, etc.

If you have the footage, we will edit it into your final production.

If you are interested in having Manager Software and Recording capture your special day, please give us a call. We'll be happy to speak with you and help decide the best package for your needs. We would also be happy to send you a sample wedding video showing some of the weddings and computer editing we have done in the past.

Please keep in mind: Before we are able to commit to filming your wedding, we need a completed Video Planner and 25% of the total fee of the filming. If you have any questions, please give us a call.

Thanks for your time and congratulations on your big day!!!

Sincerely,

Shawn
